HOLE BY HOLE

Every hole, settled as you go

Tap any player and their whole card opens — every hole color-coded, net and money right there.

The screenshot shows the Wolf Cup app interface. At the top, the time is 4:27 and the battery is at 65%. The app title "Wolf Cup" is displayed with a horse icon. Below the title are icons for weather, camera, help, and the AssTV Network logo. A navigation bar contains tabs for "Harvey", "Stableford", "Money", and "Scouting". The main content area displays a player's card for Steven Chatterton, ranked 1st. The card shows a total score of -3, 39 strokes, a net of +\$27, and 30.5 points. Below this is a detailed hole-by-hole breakdown for holes 1 through 9, plus an "Out" total. Each hole's score is color-coded: green for birdies, yellow for bogeys, and red for blow-ups. The "Wolf" column indicates the player's position relative to the field (e.g., JM for Just Made, W for Winner, CK for Close Knockout, CM for Close Match, 3v1 for 3-way tie).

#	Player	To Par	Stb	\$	Hvy Pts
1	Steven Chatterton HCP 14.4 · F	-3	39	+\$27	30.5

Hole	1	2	3	4	5	6	7	8	9	Out
Par	5	4	4	4	4	3	3	5	4	36
Score	6	5	7	4	5	4	4	6	4	45
Wolf		JM		W	JM	3v1	CK	CM	3v1	
Net	5	4	6	3	4	4	3	5	3	37

- ✓ Color-coded scores — birdies, bogeys & blow-ups at a glance
- ✓ Net & money per hole — no calculator, no arguments
- ✓ Tap a name to open their full front-9 / back-9 card

THE MONEY

Who owes who — done.

Every game's money is tracked live and rolled into one simple settle-up at the end. No spreadsheet, no "I think you owe me."

The screenshot shows a mobile app interface for a tournament. At the top, there's a header with a logo and the word "Tournament". To the right, there are two buttons: "Auto" and "Account". Below the header, the word "Money" is displayed. Under "Money", there's a "← Back" link. The main section is titled "Standings" and contains a table with four rows. The first two rows show "Alex Carter" and "Sam Rivera" with a balance of "+\$45.00". The next two rows show "Johnny Hotdog" and "Cuban (you)" with a balance of "-\$45.00". Below the table, there's a note: "Team and individual money are kept separate below; each cell is what the row player is up on the column player." Under this note, the title "Team / Ball money" is shown. Below the title, there's a table with four columns: "JOHNNY", "CUBAN", "ALEX", and a fourth column with a question mark. The first row of this table is partially visible, showing "Johnny" and "-\$41".

	JOHNNY	CUBAN	ALEX	!
Johnny				-\$41

- ✓ Standings in dollars — what each man is up or down
- ✓ Whole-dollar settle-up — every loser pays one person, clean
- ✓ One end-of-trip number that nets everybody out

Lock in handicaps by date

A member-guest only works if the strokes are fair. The organizer freezes everyone's index as of a date you pick — set, posted, identical for everybody. No mystery sandbagging week-of.
