Your Guide to the Wolf Cup App

Everything you need to know to score rounds, check standings, and dominate the league — right from your phone.

- 01 Score Entry
- 02 The Board
- 03 Wolf & Skins
- 04 How Money Works
- 05 Standings
- 06 Stats & Awards

wolf.dagle.cloud

Open on your phone · Works on any device · No app store required

GETTING STARTED

Entering Your Scores

This is the screen you'll use every Friday. Open the app, join your group, and enter scores hole by hole as you play.

1. Open **wolf.dagle.cloud** on your phone and tap the **Score** tab at the bottom.
2. You'll see today's round listed. Tap it to select it.
3. Enter your **entry code** — it's the year (e.g. **2026**). This connects you to your group.
4. You'll land on **Hole 1**. Enter each player's **gross score** (actual strokes). Net scores and stableford points are calculated automatically from handicaps.
5. On **par 3s**, mark **greenies** (hit the green & make par). On any wolf hole (every hole except 1 & 3), mark **polies** (made putt longer than the flagstick) and **sandies** (up & down from the bunker).
6. Use the **arrow buttons** to move between holes, or tap the hole number bar to jump to any hole.

💡 **Scores save automatically**

You can close the app and come back any time — your session is remembered. If you lose cell service on the course, scores are queued offline and sync when you're back online.

🏆

YOUR HOME SCREEN

The Board

The Board is the first thing you see when you open the app. It shows every round this season — upcoming, in-progress, and finished.

1. Each round card shows the **date**, **round number**, and **status** (scheduled, active, or finalized).
2. Tap any **player row** on the live or finished leaderboard to expand the full horizontal scorecard for that player.
3. While you're playing, an **All / Group** pill toggle appears above the leaderboard — the second pill shows your own group number (e.g. **Group 2**). Tap it to filter the board to just your 4 for in-group score auditing.
4. Finished rounds show a **Highlight Reel** at the top — auto-advancing slideshow of birdies, eagles, greenies, polies, sandies, and best wolf wins.
5. Swipe between rounds or use the **arrow buttons** to browse the season.

📱 **Add to your home screen**

For the best experience, add the app to your phone's home screen. On iPhone: tap the share button → "Add to Home Screen." On Android: tap the menu → "Add to Home Screen." It'll look and feel like a real app.

🐺

THE GAME

Wolf & Skins

The app tracks the wolf game automatically. Here's how it works so you know what's happening on screen.

1. Holes **1 & 3** are always **skins** — every player for themselves. Lowest net score wins.
2. Every other hole (**2, 4, 5, 6, 7, 8, 9, 10–18**) is a **wolf hole**. The **batting order** (set during ball draw) determines who's wolf each one — Player 1 starts on hole 2, then the rotation cycles through the group on the next non-skins hole.
3. On wolf holes, the wolf watches each player tee off in order. After seeing the shots, the wolf either **picks a partner** (2v2) or goes **lone wolf** (1v3). A wolf can also call **blind wolf** *before* seeing any tee shots.
4. Going lone wolf is riskier — win and you collect from the 3 opponents (3 points). Lose and you pay the 3 opponents (−3 points). **Blind wolf** adds **1 extra point per opponent on a win** (no extra penalty if you lose).
5. The **score keeper** records each wolf decision in the score-entry screen. The app handles the math.

🎯

2v2 (Partner)

Wolf picks a partner. Best net ball of each team wins the hole.

🐺

Lone Wolf

Wolf goes alone against the other 3. Higher risk, double reward.

THE STAKES

How Money Works

The app calculates all money automatically — just enter the scores and it handles the rest. Here's the breakdown.

SITUATION	WHAT HAPPENS
Wolf 2v2 (partner)	Winning team collects from losing team
Lone Wolf wins	Wolf collects from the 3 opponents
Lone Wolf loses	Wolf pays the 3 opponents
Blind Wolf wins	Same as lone wolf + **1 extra point per opponent** (no extra penalty on loss)
Skins (holes 1 & 3)	Lowest net wins, collects from everyone
Greenie (par 3)	Hit the green and make par — each other player pays you
Polie (wolf holes)	Made putt longer than the flagstick pole — **1 extra point for your team**
Sandie (wolf holes)	Up & down from the sand (one shot out of bunker, one putt in) — **1 extra point for your team**

Greenies, polies, and sandies are tracked on holes 1 & 3 for stats but don't pay out on skins holes.

🧮 **It's all automatic**

You never have to do math. The app tracks every dollar won and lost per hole, per round, and for the season. Check the round detail or your player stats to see where you stand.

📊

THE SEASON

Standings

Regular-season rounds set the stage — but the Wolf Cup Champion is decided in the playoffs.

🏆

Wolf Cup Champion

Won in the playoffs. Playoff rounds count multiplied and decide the crown — regular-season standings just set the bracket.

1. Tap the **Standings** tab to see the current season leaderboard.
2. Points come from **Harvey points** — stableford rank + money rank within your group each round.
3. Your **best 10 of 20** regular rounds count — a bad week won't sink you.
4. The playoffs decide it — **2 rounds of 8** (×3 points) followed by **2 rounds of 4** (×8 points).
5. Tap **"History"** at the top to see past champions and final standings.

🎯 **Weekly Side Games**

Six games rotate weekly — **Most Skins, Most Net Pars, Least Putts, Most Net Under Par, Most Polies, Closest to Pin**. This week's game is shown on the leaderboard; winner is announced post-finalization. A **Side Game Champion** trophy goes to the season leader.

📈

YOUR LEGACY

Stats & Awards

The Stats page is where you see how everyone stacks up — and the awards showcase celebrates the league's greatest moments.

1. Tap the **Stats** tab to see league-wide averages, money leaders, and the awards showcase.
2. Tap **any player's name** to open their drill-down — a deep look at their performance.
3. The drill-down shows their **highlight reel** (birdies, eagles, greenies, polies), **partner chemistry**, and **batting order performance**.
4. The **awards showcase** displays trophies and badges earned across all seasons — past champions, iron man streaks, and more.

🎖️

Awards

Champion trophies, Harvey Cup winners, OG badges for founding members, and more.

🔍

Player Drill-Down

Tap any player to see their personal stats, best/worst partners, and highlight reel.

🔥

Hot Spots

Repeated events on the same hole are flagged — like "Hole 7 ×4" for a greenie machine.

🤝

Partner Chemistry

See who you win with most and who drags you down. Data-driven partner picks.

⚡

CHEAT SHEET

Quick Reference

Everything you need at a glance. Keep this page handy for your first few rounds.

📱 Getting to the App

Open **wolf.dagle.cloud** in your phone's browser. Add it to your home screen for quick access — it works like a regular app.

⛳ On the Course

Tap **Score** → **select today's round** → **enter the year (e.g. 2026)**. Enter gross scores for each player. Mark **greenies** on par 3s, **polies** and **sandies** on any wolf hole. That's it!

📋 Leaderboard Cheat Sheet

Open **Help** → **Leaderboard Cheat Sheet** for a one-page reference of rank pills, score notation, bonus dots, handicap strokes, and every wolf-row letter.

📸 Photo Gallery

Tap the **camera icon** in the header to open the gallery. Upload photos from the course — they're auto-tagged to the active round.

📶 Lost Signal?

No problem — scores queue locally and sync when you're back online. You'll see a red **"Offline"** indicator in the header.

🌙 Dark Mode

Tap the moon/sun icon in the top-right corner to switch between light and dark mode. Great for bright days on the course.

❓ Need Help?

Tap the **help icon** (circle with a question mark) in the header anytime to open the in-app guide.

✏️ Made a Mistake?

Go back to any hole and re-enter the score while the round is active. After finalization, the admin can make corrections from the admin panel.
