Wolf Rules:

- We play $1 point. We play one point for low ball and one point for low total. You also get points for net skins (winning the whole outright) – 1 point for par, 2 points for birdie and 3 points for eagle. Double birdie bonus is in effect, but one of the birdies must be natural, not net

- Junk – we play greenies and polies. Greenies are closest to the pin with validation (two putt or less). Double greenie bonus comes into play if both partners are inside the other team (can't get as wolf) and both must validate. No Greenie carryover. Polies are any shot longer than the flag stick that goes in, on or off the green. You only get one opportunity for a polie putting (and you can't putt off the green and then chip in for polie)

- The order for Wolf stays the same the whole game. The wolf hits first. Everyone else follows in the same order as before. If you declare wolf before anyone even hits you are truly a man, you get an extra skin if you win the hole. Every player gets to be wolf on one par three. The tees will rotate on a weekly basis, blue, black, white.

- Everyone must go Wolf once per round. If you have not gone wolf by your 4th Wolf hole, you are going blind Wolf without the additional skin in play.

- The first two holes are skins. There is no junk. The lowest net score wins the skin. $1 from each opponent. Nothing happens in a tie.

- If you lose wolf, you lose low ball and low total to the other three players, plus junk when applicable. When you win as wolf, it is the reverse, two points per player plus junk.
